## **Trust Automation Expands Sales Presence in South Korea**

San Luis Obispo, California. – May 1, 2005 – Trust Automation, a leading developer of innovative motion control products and solutions for the semiconductor manufacturing, medical, entertainment, automotive and aerospace industries, today announced expansion of its sales and distribution presence in Asia, partnering with INNOTICS Inc., of South Korea, a leading supplier of motion and automation related products including motors, drives, encoders and stages.

INNOTICS supplies products and system solutions for robotics systems, motion control and position control applications. Using the latest high tech tools and techniques, they provide optimal solutions for applications ranging across multiple industries such as semiconductor manufacturing and flat panel display manufacturing. INNOTICS has a skilled engineering staff ready to offer service and support to their customers.

"Trust Automation is excited about our new partnership with INNOTICS," said Dave Rennie, Director of Sales & Marketing. "The high level of service and support they provide their customers enhances our ability to support customers in South Korea."

### **About Trust Automation**

Since 1990, Trust Automation has provided innovative motion control products and engineering services for the needs of many industries. Our products, including stand-alone machine and motion controllers, SynqNet I/O and SynqNet Drives, Brushed and Brushless Rotary Motors and Interconnect Products, reflect quality, robust performance, and ease-of-use; a refinement attained over 15 years of enabling Original Equipment Manufacturers meet and exceed their goals.

Trust Automation's electrical, mechanical, and software engineering teams provide comprehensive engineering services and consulting to a broad range of industries including semiconductor manufacturing, medical, entertainment, automotive, and aerospace. Our in-the-field experience with leading companies in these industries gives us the opportunity to solve today's cutting edge, real world challenges, challenges that must be solved by new ideas; new ideas that Trust Automation transforms into the **Smart Solutions** of tomorrow.

Trust Automation is headquartered in beautiful San Luis Obispo, on California's Central Coast.
