## Trust Automation to Exhibit at ASPE in Monterey October 4-9

San Luis Obispo, CA – 3 Jun 2009 – Trust Automation is pleased to announce that we will be attending and exhibiting at the American Society for Precision Engineering (ASPE) annual meeting in Monterey, CA from October 4 to October 9. Please stop by and see us.

Trust Automation is a Sustaining Corporate Sponsor of ASPE. ASPE focuses on many areas of study important in the research, design, development and manufacture of high accuracy components and systems. Trust Automation specializes in Linear Amplifier Technology, a key component of many demanding machine applications, particularly in the Semiconductor Equipment business.

The ASPE annual meeting is a forum for industry and academia to come together to exchange ideas, present new materials and familiarize themselves with the new technologies being presented by the exhibitors. It is a very important forum for the precision motion industry and has not only a US presence, but a European group, (EUSPEN) and a Japanese group (JSPE).

For more information, see details at the [ASPE](http://www.aspe.org) website.

### **About Trust Automation**

Since 1990, Trust Automation provides motion control products and engineering services for the needs of many industries. Examples of these products and services are: Stand-alone motion and machine controllers, Linear Servo Amplifiers, SynqNet I/O and bridge products, Brushed and Brushless Rotary Motors and Engineering services covering Mechanical, Electrical, Software and System aspects of machine design. Our products reflect quality, robust performance, and ease-of-use; a refinement attained over many years of helping Original Equipment Manufacturers meet and exceed their goals.

Trust Automation provides comprehensive Engineering services to a broad range of industries including semiconductor equipment manufacturing, medical, entertainment, automotive, and military/aerospace. Our in-the-field experience with leading companies in these industries gives us the knowledge and experience to help you solve today's cutting edge, real world challenges, challenges that must be solved by new ideas; new ideas that Trust Automation transforms into the Smart Solutions of tomorrow.

Trust Automation's headquarters is in San Luis Obispo, on California's Central Coast.
